AI-Powered Indian Standards Recommendation Report

Procurement Standards Assessment & Technical Compliance Screening

Target Query / Product:	Outdoor LED street light for municipal road lighting, approximately 90 W, IP66, suitable for outdoor use.
Report Identifier:	BIS-REC-20260920-210250
Date & Time:	20 September 2026, 09:02 PM
Scope & Grounding:	Grounded on Bureau of Indian Standards dataset partition. Contains unverified external citations requiring review.

1. Executive Summary

The request concerns the procurement of an outdoor LED street■light (≈ 90 W, IP66) for municipal road lighting. The supplied BIS corpus contains standards on transformers, paint colour testing, and radio■disturbance measurement, but **no Indian Standard in the provided passages directly addresses LED street■lights, their electrical ratings, IP■ratings, photometric performance, or installation requirements**. Consequently, a definitive, standards■based recommendation cannot be made from the available evidence.

2. Product & Procurement Understanding

- **Intended Product:** Outdoor LED street light for municipal road lighting, approximately 90 W, IP66, suitable for outdoor use.
- **Target Domain:** Technical Specification / Tender Evaluation

3. Applicable Indian Standards

#	Standard	Title	Status	Relevance	Applicability / Reason
1	**IS 10028 (Part 1):1985**	IS 10028-1: Code of Practice for Selection, Installation and Maintenance of Transformers, Part 1: Selection	**Current**	Primary Standard	cable connection. The HV side should have bare bushings suitable for outdoor installation. For 66 kV and above, oil-filled condenser type bushings should be specified. For installation in polluted atmospheres, the bushings shall be specified with extra creepage distance as given in IS : 2099-1973t>
2	**IS 10028 (Part 2):1981**	IS 10028-2: Code of practice for selection, installation and maintenance of transformers; Part 2 Installation	**Current**	Applicable Standard	Heat Output kW 0'75 1 2 3 4 2 -f 1-5 per hundred kVA NOTE — The temperature of the winding should not exceed limits specified in IS:2026(PartII)-1977.* •Specification for power transformers: Part II Temperature-rise {first re virion). 20 IS: 10028 (Part II) -1981 7.3.1.7 The transformer should be s

4. Related & Allied Standards

#	Standard	Title	Relationship / Scope
1	**IS 101 (Part 4 / Section 2):1989**	IS 101-4-2: Methods of Sampling and test for paints, varnishes and related products, Part 4: Optical tests, Section 2: Colour	Test Method
2	**IS 10052 (Part 2):1999**	IS 10052-2: Radio Disturbance and Immunity Measuring Apparatus and Methods, Part 2: Methods of Measurement of Disturbances and Immunity	Test Method

5. Compliance & Quality Notes

- Quality Control Order (QCO) and mandatory certification status should be verified against the official Gazette of India notifications.

6. Warnings & Grounding Alerts

ATTENTION / VERIFICATION REQUIRED:

- The generated answer cites IS 101, IS 11472 (Part 1):1985, IS 10052, IS 14579, IS 14487, IS 302 -- not present in the retrieved context. Treat those citations as unverified.
- Unverified citations: IS 101, IS 11472 (Part 1):1985, IS 10052, IS 14579, IS 14487, IS 302 were not present in context.
- Ungrounded citations detected: IS 101, IS 11472 (Part 1):1985, IS 10052, IS 14579, IS 14487, IS 302. Check official BIS catalogue.

8. Limitations & Regulatory Notice

- **Corpus Scope:** The recommendations in this report are based on the indexed partition of Bureau of Indian Standards (197 partition standards / 9,031 chunked passages). Standards outside this partition may also apply.
- **QCO & Mandatory Status:** Quality Control Orders are legal instruments issued by relevant Ministries. Users must cross-verify mandatory certification requirements with the latest official BIS Gazette notifications.
- **Regulatory Disclaimer:** This document is an AI-assisted technical screening aid for procurement specifications and does not constitute a formal legal opinion or official Bureau of Indian Standards certification.
